Dr. SPINNEY will guarantee to forfeit \$500 for every case of seminal weakness, or private disease of any kind or character, which he undertakes and falls to cure. You may be in the first stage; remember you are approaching the last. If you are bordering upon the last, and are suffering some or all of its ill effects, remember that if you persist in procrastination the time must come when the most killful physician can render you no assistance; when the door of hope will be closed against you; when no angel of mercy can bring you relief. THE "California Giant" is the name given to a huge artesian well in Merced county on the ranch of HOAGLAND & CHAPMAN, 16 miles below Plainsbury on Mariposa creek. It is 270 feet deep and throws a stream equal in quantity to a sixteen inch sluice stream, miner's measurement, and cost \$750. It is estimated to flow 150 gallons of water per minute, sufficient any. to irrigate 200 acres of land. The Merced Express estimates that the stream of water will increase the yield of the ranch at least \$2,250 per annum.

#### Methodist Conference Division.

At the Methodist Conference during its late session in San Francisco the report of the Conference Division Committee was brought up and carried by a large majority. The new Conference is to be named the South ern California Conference and has the following boundaries: Beginning at the Northwest corner of San Louis Obispo county runs along that line to Tulare, thence East to the State line, thence Southwest along the State line to the Ocean-including also the islands. The report of the Committee and the representation of the speakers were in glowing colors of the present and prospective of the growing country embraced in the new division of the church. Los Angeles being the central point of Southern California will doubtless be chosen as the place of Conference, and this will also lead to the establishment of a Methodist College in our midst.

# Room for Expansion.

The area of the State of California is reported by the Commissioner of the General Land office to be 120,947,840 acres, of which nearly 90,000,000 are suitable for agricultural purposes. The valleys embrace fully 40,000,000 acres adapted to grain culture, and the swamp and overflowed lands cover 3,-000,000 acres. The latter when reclaimed are capable of producing annually not less than 75,000,000 bushels of wheat, an amount more than double the average product of the entire State at the present time at an average of \$20 per acre the valleys of the State | the Council, due to the railroad comcan yield annually the enormous pany and due to the city that these wealth of \$800,000,000. The mineral charges be sifted to the bottom. wealth of the country, great as it is, sinks into insignificance when compared with the agricultural interests. The present population of the State is perhaps 800,000 so that there is 50 acres of valley land to each inhabitant, and over 100 acres of tillable land to each man, woman and child. But as there are only half the population of the State outside the cities and towns and only one-fifth of these are tillers of the soil there is only about 80,000 hus-

# The Issue Joined.

The annihilation of the third party movement in California was the first blow given to independent political action, and the "third parties" throughout the country are melting away like snow beneath the noonday sun. The contest will henceforth be between the Republicans and Democrats. Every voter must range himself under the one or the other banner, There will be no middle course to pursue. The Liberal Republican Party, that party which under the guidance of a few short sighted politicians foisted HORACE GREELY upon the Conservative people of the country, has been quietly laid away in the tomb Its bones rest at Chappiaqua alongside those of the great journalist. There is not a nail left to hang the smallest corner of an Independent party upon, and after the two great parties have declared their tenets there will not be enough material left to make one plank towards a third party platform. make an independent personal candidate, and no principle to be enunciated by the middle-men. They will have to range themselves with one of the great parties and the great majority will unhesitatingly give in their allegiance to the Democracy. There is no man strong enough to

result of ring manipulation, has prothe ordinance locating the depot at the point named, is sufficient evidence to satisfy all that influences outside of a desire to subserve public interest, were brought to bear on certain parties whose support was necessary to carry out the scheme of those who purchased and bonded the property on San Pedro street before the public were informed that the location of the depot had been selected. Basing our judgment on information received from reliable sources, we are satisfied that the railroad company will be justified in refusing to accept the location selected for their depot. We understand that both Senator Jones and his general manager Colonel JACKson have given assurance that if evidence of trickery in the depot location can be obtained, they will refuse to accept the property and leave the ring to get rid of the land they have purchased and bonded as best they can. We presume no difficulty will be encountered in securing all the evidence necessary on the point. If it is possible to do so legal proceedings should be commenced at once to prevent the consumation of the ring's purpose. It is certainly the duty of all lovers of right and justice to demand an investigation of the charges that attempts have been made to bribe Councilmen. If one half the reports concerning the depot location are true the transaction is a shameful affair and a disgrace to the city. Colonel Jackson is investigating the railroad side of the matter; and the people of Los Angeles should show up the guilty parties if there be

#### Councilman Huber's Card.

Our attention has been called to communication in last evening's Express, to which is appended the name of our respected and respectable friend Councilman HUBER, in which the HERALD is charged with reflecting on the honesty and integrity of our City Council, in connection with the Los Angeles and Independence railroad | that, owing to the intimate connection depot matter. After reading the let- between the newspaper fight and the ter to which Councilman HUBER's name is appended, and which of course he wrote, and reflecting a few moments, we reached the conclusion that he has rushed into print a little prematurely. We never heard and we never said that any one had bribed or attempted to bribe Councilman Hu-BER, and until we do make some such statement we would suggest to our respected and respectable friend the advisability of leaving the shoe for those who fancy it will fit them. It is true that Councilman HUBER was one of the committee which selected San Pedro street as the site of the depot, but because he was one of this committee is no evidence that certain parties obtained information from him which induced them to purchase and bond all the property they could in the vicinity of the proposed depot site. As each member of the Council seems to think we mean him when we say a for call loans are still one and one and Councilman was offered a bribe, we one-fourth per cent. The savings banks will say that it was Councilmen CAR-MONA and SOTELO whom we heard were offered one thousand each to vote for the ordinance locating the depot on San Pedro street. Both gentlemen refused the dishonorable proposition. We will give to any one desiring them the names of our informants. We want this matter investigated. It is due to the members of

# The State Fair.

We do not suppose that any Fair,

State, District or county, was ever conducted on purely disinterested principles, or that the officers of these associations are so magnanimous as to have no irons of their own in the fire. We are sure the records of the California State Fair will not show that institution to have been conducted on bandmen or one to each 1100 acres of the non-remunerative plan. Aside from the numerous little side interests it has been greatly warped and influenced by politics and locality. A few years ago the State Fair was as much a Republican organization as the Republican State Central Committee. Under the management of corresponding Secretary Hoad only Republican journals were selected as advertising mediums and at a pe riod when party feeling ran high Democratic members of the Board were few and far between. These errors have been in part corrected of late and it is to be hoped they will soon be entirely eradicated. Locality has militated against the success of the State Fair, Sacramento, is not the most desirable place for the assembling of people and stock from all parts of the State. Reasons in su pport of this statement are so many and obvious that we need not recapitulate. The whole State is under contribution to Sacramento and the people of that is described as having had a very salgoodly city are not contented with the utary effect. The telegrams also menusual charges for food and room rent. When the Legislature meets, board is advanced, room rent is doubled and those who indulge, tell us that bit

We have in this State dozens of localities equally well adapted for the annual exhibition, with Sacramento. Los Angeles owns a finer Agricultural Park and race track than that at Sacramento, Santa Rosa, San Jose, Stockton and perhaps a dozen other places in the State have accommodations for holding a State Fair equal if not superior to those of Sacramento. At each session of the Legislation large sums are voted from the people's money to the State Fair. Nine-tenths of this money never gets out of Sacramento. Let us divide the honor and the profit. Los Angeles will furnish a better track, better buildings and better weather for the State Fair than Sacramento and she will promise further not to put up during the Fair, the price of board, rent or whisky.

San Francisco News. SAN FRANCISCO, Sept. 22.-A new point of interest is about to be made in the journalistic war which has been going on here since the failure of the Bank of California. The Alta yesterday morning printed an editorial charging the proprietors of the Bulle-tin and Call with having pursued the course they have followed during and since the late panic, with the object of affecting the stock market and creating a financial panic. As a conse quence the Bulletin and Call proprietors, through their attorney, John F. Swift, are now preparing and in a few days they will file a complaint for libel against the Alta. It is expected

teresting development will be made. Nothing new in the Bank of California affairs. The date of resumption is still undecided. It is now stated authoritively that the San Francisco Assaying and Refining works will be transferred to Flood & O'Brien in a few days. Arrangements for the sale are completed and nothing remains but to make the formal transfer.

The Call this morning contains the following: The recent systematic and unbridled attacks of the Atta on the proprietors of the Call and Bulletin have resulted in proceeding being taken to compel proof, if it be forthcoming, of the charges preferred. Jno. F. Swift is engaged in the preparation of the papers in a libel suit, and in a few days they will be filed in one of our courts.

There is more money in circulation here than has been at any time during the past four weeks; but there is still a very conservative feeling among bankers and private capitalists, and borr wers are put off with as little as they can get along with. The rates are still holding back in reference to new loans, and the range is nominally at 8@12 per cent. per annum. With restoration of confidence, which is already gradually returning, money will again be plentiful. Coin drafts are being drawn on the Atlantic cities at 1@ 1 per cent. Currency drafts 151@151 per cent. premium on gold. Telegram one per cent. exchange on London 49@491 premium for sixty day bills, and 50@501 premium for com-mercial bills. On Saturday last J. E. Alexander, while driving from the vicinity of Sacramento and Hyde streets to the Excelsior mills, lost his gold coin sack containing \$25000, and has been unable to obtain any trace of it. There is scarcely a doubt but that the precious package has been found by some person who thinks it belongs to him by right of discovery, and who laughs at the five hundred dollars reward offered by the loser for the return of the

The Races at Sacramento

SACRAMENTO, Sept. 22d.—The stock parade at the track this morning was the finest ever witnessed on this coast the procession reaching to within a few yards of the whole length of the track. The weather is warm and very pleasant, and in the races to-day the conditions of the track and weather taken into consideration, fast time is expected. Gambling of every description infests the city. Its doors stand wide open to every stranger, and though on last Friday night they were temporarily closed by the police, are now in full blast again. The attendance at the Park both morning and afternoon daily increases, some four or five thousand being present this morning to witness the parade. The Directors' stand is tastefully decorated by flags and banners in honor of the distinguished guests, Gen. Phil. Sheridan, wife and party. At the track in the afternoon the largest crowd of the meeting was present, not less than ten thousand persons to witness the selling of the race purse for \$300, mile heats, the excess to go to the second horse, entered to sell for \$2000 to carry seven pounds extra for \$1500, his entitled weight. for \$1000, seven pounds off, for \$500 fourteen pounds off. The entries were Kenyon and Holmes' s h Twenty-one; G. Buchanan's b m Emma Skaggs; J. M. Parker's b s Princeton; J. H. Miller's b g Col. Cowles, meets at 12 o'clock. with only the following four starters. Before the start for this heat Mr. M. D. Boruck presented to the audience Gen. Phil. Sheridan, in the following neat little speech: "Fellow Citizens: The history of the man I now have the pleasure to introduce, is comprised in his name—Phil. Sheridan." Three cheers were then proposed and responded to in the heartiest manner, and most gracefully acknowledged by our

Cowles drew the pole with 93 pounds to sell for \$500; Princeton second, 103 pounds, sells for \$1000; Emma Skaggs third,94 pounds, sells for \$1000; 21 fourth, 94 pounds, and selling for \$400. At the first attempt they got an even start, Princeton at once going to the front under a strong pull, Skaggs second, Cowles third and 21 last, in this position to the half-mile pole in 531. When past this pole Cowles and wary without molestation and when of others that the letter to Governor 21 commenced a fight for the suprem-

acy, which honor fell to 21, Princeton second, Cowles third, Emma fourthtime, 1:50,

Second Heat .- Again at the first attempt the bell taps and away they go. 21 fell back and Princeton took the pole, Cowles next and Skaggs third. At the half the positions were still unchanged, but this is 21 running, and already he had begun to make for the front, passing Princeton and next Cowles, and threw out his challenge to Miss Skaggs, who at once accepted and under whip and spur they came down the stretch, head and head; at the draw-gate Emma bounded to the front by a head in the fastest time made this meeting-1:441-21 second, Cowles third and Princeton distanced.

Third Heat .- At the start 21 and Emma soon drew away from the Col. and paid their special attention to each other, running together the whole way and won by 21 only after a very hard fight in 1:483, Emma second, Cowles third. Immediately after this heat 21 was sold at auction to Mr. Bockley for

The next race was mile heats, 2 in free for all three-year-olds, purse \$300, \$50 added. The entries were L. J. Rose's black and tan filly Beautiful Bells, E. H. Miller's bl. f. Arabia, F. H. Titus' br. f. Echora. The pools sold before the start as follows: Beautiful Bells \$210, Echora \$130, Arabia \$24. Arabia drew the pole, Bells second, Eshora third. At the start Echora took the lead and proved herself quite an obstacle to the pools to buyers who had bought Beautiful Bells at 3 to 1, distancing both Arabia and the mare with the high-sounding appendix, the mention of whose name sounded like the tolling of a funeral knell to the unlucky guessers; time, 2:42.

The next race was a special one, with which the Society had nothing to do. It was for a stake of \$250 each, gotten up on account of the shortness of the other two races, between Onward, Sincoe, and Dan Voorhies. Mile heats, three in five. Onward won the first heat easily, Voorhies breaking badly at the drawgate, Sincoe third. Time, 2:271.

Second Heat .- A foul occurred at the start by White, the driver of Onward, for which he was fined \$30 and his seat taken from him and McGregory put in. Pete Brandon was ordered to take Seven Oaks' place behind Dan Voorhies, to which Seven Oaks strenuously objected, and in consequence a general free fight took place-a most disgraceful affair. Sheriff Larve was Oaks, and stated that he was willing any one but Brandon should drive his horse, and swore he (Brandon) should Democrats as a party to be in favor of not, the Sheriff and he going at the same time toward the horse, now in the possession of Brandon preparatory to a start, and followed by a large crowd of policemen, when another fight and the greatest confusion imaginable ensued. At last Seven Oaks was conveyed to the outside and placed in a hack, when a fight commenced between the Chief of Police the possession of the prisoner, which was at last gained by the former and driven off to the station house, the Sheriff returning to take possession of the horse, which the Judges at last seeing they had no right to hold him, consented to the Sheriff taking him off the track. There is grave doubt as to whether the Judges had any right to act as they did, the limit of their authority being that if the owner refused to accept the driver offered by the judges he should be allowed to take his horse off the course, but subjected to the highest penalty-expulsion of the horse and driver. Sincoe was the heat, Voorhies second and Onward third. Time, 2:28.

The third heat was won by Onward by a neck in 2:291.

The fourth and last heat was also won by Onward, Sincoe second. Time

The President announced the life expulsion of Seven Oaks, Voorhies and all his owners. All pools and outside bets were declared off. The great wonder is how White escaped punishment, as the Judges had displaced him and gave his horse to Mc-Gregory, who won with him at ease, but the most popular opinion is that pacing horses and races are at a Leavy

Our old friend, Judge Letford, was agreeably surprised on Tuesday night to meet in the person of Mr. W. Beach, of Spadra, an old companion in arms, a member of the same company with him during the Mexican war. The old friends had not met since 1856, and when they clasped hands the recollection of old times brought tears into their eyes. Both had changed in the last twenty-six years, but in that meeting they renewed their youth and felt as full of life and fire as when they campaigned together in Mexico. It was a joyful meeting, and the old veterans pledged each other again and again in generous California wine.

From the Schoolmaster we learn:-Monday morning, in consequence of the fog, it was chilly at the time of commencing school. The pupils and teacher of the Eighth street school teacher of the Eighth street school concluded to have a fire. The stove was soon put up and filled with dry wood. All were happy; when suddenly the falling of sparks called attention to the roof, which, in consequence of a defective pipe, was in a light blaze. Fortunately, there was an ample supply of water. The pupils showed great presence of mind, and scaling the walls were soon on the roof, and the walls were soon on the roof, and in a few minutes extinguished the flames. Special credit is due John Fitzgerald, Willie Nixon and Edmund Truedale for their well directed efforts, though all did well. Considering the combustible nature of the roof, it is a wonder that the flames were so easily arrested.
